Stainless Steel Sinks

Guaranteed to maintain their functionality over time, Franke Commercial stainless steel sinks remain brilliant and easy to clean. Stainless steel is the material of choice for commercial environments where durability, hygiene, and functionality matter most.

Franke Commercial stainless steel sinks have been engineered for quick and easy installation.

Our patented EZ Torque[™] fasteners mean a Franke sink will **install five times faster** than the competition. One-handed drop and drill installation: fasteners come pre-installed on the sink meaning you can simply drop the sink into the countertop and use a drill to tighten the fasteners.

Factory applied rimseal simplifies installation. No need for silicone for the sink rim eliminates a messy step from the install process.

Satin finish

A #4 satin finished bowl and deck allows scratches to be blended into the grain line. An ideal finish for commercial applications.

EZ Torque™ fasteners

Install a Franke Commercial topmount sink in two easy steps: drop and drill. Bright red EZ Torque™ fasteners are easy to spot and can be tightened with a drill in seconds.

Rimseal pre-installed

We make installing a Franke Commercial topmount sinks quick and easy. Our factory-applied Rimseal means fewer installation steps and less mess.

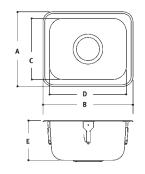

Waste fitting included

Most Franke Commercial sinks are sold with a stainless steel waste kit included in the box. These high quality waste assemblies are also available separately.

Single bowl topmount no faucet ledge, 20 gauge

- Single compartment self rimming topmount
- Includes waste assembly
- 20 gauge (0.9 mm), Type 302 (CNS 18/8) stainless steel
- #4 satin finished
- Undercoated to reduce condensation and resonance
- Factory applied rim seal and factory installed EZ TORQUE™ fasteners
- Certified to ASME A112.19.3-2008 / CSA B45.4-08

Topmount stainless steel sinks engineered for quick and easy installation

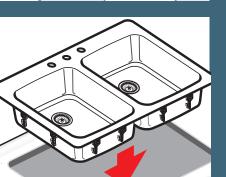

Factory installed rimseal

Eliminates the need for silicone

Preinstalled on the sink, drop and drill installation

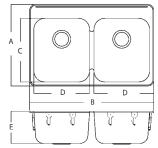

Contractors and installers love the ease of installation of the Franke Rimseal. Simply peel off the backing and the sink is ready to install. No silicone mess.

Secure the sink rim to the countertop in two easy steps. Drop the sink into the countertop then tighten with a drill. Clamps are preinstalled to sink, and won't get lost on the job site or left behind in the box.

Double bowl topmount with faucet ledge, 18 gauge

- Double compartment self rimming topmount
- Includes 3 1/2" (89 mm) crumb cup waste assemblies

(Quick Ship models noted with ♦ require waste assemblies, ordered separately)

- 18 gauge (1.2 mm), Type 304 (CNS 18/10) stainless steel
- #4 satin finished
- Undercoated to reduce condensation and resonance
- Factory applied rim seal and factory installed EZ TORQUE™ fasteners
- Certified to ASME A112.19.3-2008 / CSA B45.4-08

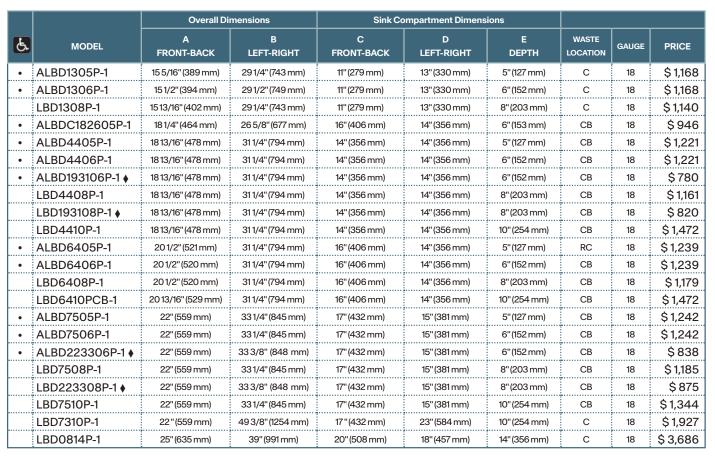

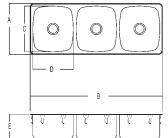

Triple bowl topmount no faucet ledge

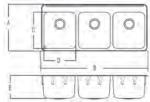

- Triple compartment self rimming topmount
- Includes 3 1/2" (89 mm) crumb cup waste assemblies
- 20 gauge sinks are (0.9 mm), Type 302 (CNS 18/8) stainless steel
- 18 gauge sinks are (1.2 mm), Type 304 (CNS 18/10) stainless steel
- #4 satin finished
- Undercoated to reduce condensation and resonance

- Floor to rim height on all models is 35" (890 mm)
- Stainless steel tubular legs with adjustable feet
- New for 2023: Drainboard has same dimensions as sink compartment: $24" \times 18"$ (610 x 457 mm) or $24" \times 24"$ (610 x 610 mm)
- Standard faucet hole option: 2 hole, 11/4" (32 mm) diameter, 8" (203 mm) centerset, positioned 4" (102 mm) below top of backsplash
- Custom faucet hole drillings are available on all models
- Please allow 4 weeks for delivery, these models are built to order and non-returnable
- Product compliance ASME A112.19.3/ CSA B45.4

Vanity Basins

Oval vanity basin topmount no faucet ledge

- Single compartment self rimming oval topmount vanity basin less faucet ledge
- 18 gauge (1.2 mm), Type 304 (CNS 18/10) stainless steel
- Satin finish bowl, mirror finish rim
- Center back waste location
- Models that end in -5D or -6D include a 11/2" (38 mm) waste assembly with rubber stopper
- Models that end in -5 or -6 accept a 11/4" (32 mm) waste assembly, not included
- Undercoated to reduce condensation and resonance
- Factory applied rim seal
- Includes cutout template and installation hardware
- Certified to ASME A112.19.3-2008 / CSA B45.4-08

Medi-flo hand hygiene sink with integrated spout

PATIENT ROOM SINK WITH INTEGRATED SPOUT FOR INFECTION CONTROL

HWSS2321W-00

Wall mount healthcare sink with laminar flow spout with integrated electrochemical water disinfection technology. White solid surface hand hygiene sink with removable shroud. Left rear 1 1/2" (DN 40) waste location to prevent water from splashing directly into the waste. An anti-splash feature runs through the center of the sink to greatly reduce splashing. Infrared controls trigger an illuminated crystal clear true laminar flow water stream delivering water with dissolved ozone and other mixed oxidants on demand. Flow rate is 5.7 Lpm/1.5 gpm.

Recommended for areas with normal water conductivity above 75 TDS. If unaware of your local water conductivity, please contact customer service and this can easily be determined for you. Recommended water temperature is between 80-95°F (27-35°C). Hand hygiene sinks are specifically designed for hand washing only. They are not recommended as a drinking source, for washing utensils or for draining of medical bags or bedpans.

A plug-in transformer required for generation of mixed oxidants is included. Medi-flo is cUPC certified and is compliant with CSA B45.5-11/IAPMO Z124-2011 and IGC156-2012el. Meets and exceeds various national healthcare standards; ie, CSAZ8000. Wheelchair accessible: meets ADA, ANSI A117.1 and CSA B651-04. Patent Pending.

Optional: Pre-set thermostatic mixing valve **MEDI-MIX**. Optional: In-wall carrier **IWC2104** for quicker installation.

\$3.500

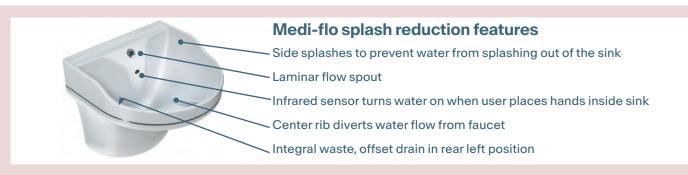

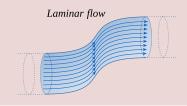

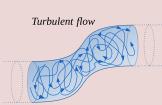

Laminar flow spout reduces splashing

Medi-flo delivers water in a laminar flow stream. Laminar flow occurs when water molecules move in an orderly, straight line for a turbulence-free stream.

Efficacy of electrochemical water disinfection

Pathogen	Efficacy	Contact time	Source
Candida auris	99.9%	10 minutes	Cleveland VA Medical Center
C. difficile spores	64%	20 seconds	EMSL Canada Inc.
Klebsiella pneumoniae	99.99%	30 seconds	EMSL Canada Inc.
Legionella pneumophila	99.99%	5 minutes	EMSL Canada Inc.
MRSA	99.9%	10 minutes	Cleveland VA Medical Center
Pseudomonas	99.9%	10 minutes	Cleveland VA Medical Center

Time kill studies performed by 3rd party laboratories show that electrochemical water disinfection can be effective at reducing certain waterborne pathogens.

Ozo-flo laminar flow healthcare faucets

Ozo-flo hands-free clinical faucets are ideal for new or retrofit applications where hand wash sinks can benefit from added infection control. The addition of ozone and other mixed oxidants to the water will help keep the sink and waste free of biofilms and bacteria. Faucets are fabricated from Type 316 stainless steel and feature a blue illumination ring indicating activation of ozonation cycle. Control features include a post-wash cycle of 3 seconds to wash soap residue and bacteria down the drain. A daily purge cycle prevents water from stagnating in the drain lines for continuous waste disinfection.

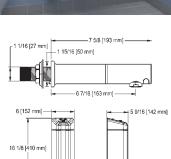

Ozo-flo touch free faucet, wall mount HWF05

Front to back 7 5/8" Diameter 11/2" Hands free operation

Laminar flow 5.7 Lpm/1.5 gpm Includes ozone generator unit with plug-in transformer.

Requires thermostatic mixing valve, not included. Recommended: MEDI-MIX.

Certified to ASME A112.18.1/B125.1, UL1951, UL979 for ozone features, and CSA C22.2, Numbers 68 and 14.

Accessories for Medi-flo & Ozo-flo

Mixing valve

MEDI-MIX

Optional thermostatic mixing valve pre-programmed for Medi-flo HWSS2321W-00 sink and Ozo-flo faucets HWF05, HWF23, and HWF43. Adjustable outlet temperature range: 95 – 118°F (35 – 48°C). Factory set temperature 95°F (40°C).

\$214

Handheld programmer

AC01-005

Allows for wireless adjustment of parameters such as sensor range, ozone generator run times, trap disinfection cycles, and data logging. May be used with multiple sinks or faucets.

\$623

Replacement shroud for Medi-flo

MEDI-SHR

Removable replacement shroud for HWSS2321W-00. White polymer composite material.

\$288

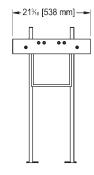

In-wall carrier for Medi-flo

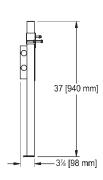

IWC2104

Floor mounted in-wall carrier designed for Medi-flo (HWSS2321W-00) sink. Preset stud locations simplify installation.

Steel uprights with welded feet.

Integrated rough in box. Hardware included.

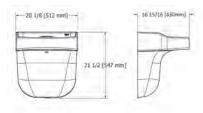

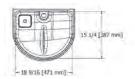

Nightingale

Handwash sink AHWSS1720W-00

White solid surface (Miranit) hand hygiene sink with removable shroud. An anti-splash feature runs through the center of the sink to greatly reduce splashing. Bowl is sloped towards drain and the sink rim is shaped to prevent users from placing objects on it. Hand hygiene sinks are specifically designed for hand washing only. Accepts single hole faucets with lower mounting hardware less than 2" (51 mm) in diameter.

Left rear 11/2" (DN 40) waste location with removable waste cover to prevent water from splashing directly into/out of the waste.

Sink is cUPC certified and compliant with CSA B45.5-11/IAPMO Z124-2011. Meets and exceeds various national healthcare standards; ie, CSAZ8000, CSAZ317.1-16. Wheelchair accessible: meets ADA, ANSI A117.1 and CSA B651-04 (check local codes to ensure compliance).

Inside bowl 14 x 16 x 7"

Waste location Center

Wall hung basin with overflow, 11/2" waste WHB1819-6

Wash basin for wall mounting. 18 gauge (1.2 mm) stainless steel. Exposed surfaces are polished to a #4 satin finish.

Includes 11/2" (38 mm) duplex waste assembly with rubber stopper, brass tailpiece and overflow.

16 gauge side wall brackets and one piece wall hanger. Separate sink carrier is not required.

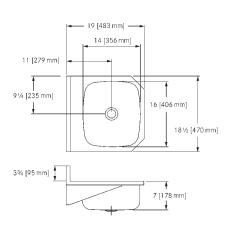

Certified to ASME A112.19.3-2008 / CSA B45.4-08.

Outside dimensions 19 x 18 1/2"

Inside bowl 14 x 16 x 7"

Waste location Center

\$1,085

wall mount

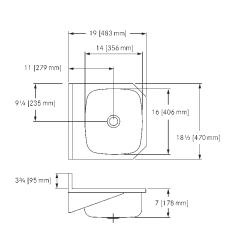

Wall hung basin, 11/4" waste WHB1819-7

Wash basin for wall mounting. 18 gauge (1.2 mm) stainless steel. Exposed surfaces are polished to a #4 satin finish.

Accepts 11/4" (32 mm) waste assembly, not included.

16 gauge side wall brackets and one piece wall hanger. Separate sink carrier is not required. Certified to ASME A112.19.3-2008 / CSA B45.4-08. Outside dimensions 19 x 18 1/2" Inside bowl 14 x 16 x 7" Waste location Center

Hand wash basins, institutional

Hand wash basin with shroud WHBS181910-3

18 gauge (1.2 mm), type 304 (CNS 18/10) stainless steel. Exposed surfaces are #4 satin finish.

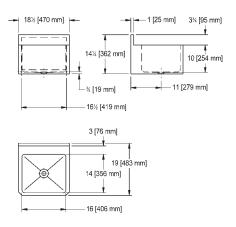

Includes one piece wall hanger bracket. Separate sink carrier not required.

Includes 11/2" (38 mm) duplex waste assembly with rubber stopper.

Certified to ASME A112.19.3-2008 / CSA B45.4-08. Outside dimensions 19 x 16 x 14 1/2" Inside bowl 14 x 16 x 10"

Waste location Center

\$2,150

Wall service sink, 14 gauge WSS6713

14 gauge (2.0 mm), type 304 (CNS 18/10) stainless steel. Exposed surfaces are #4 satin finish.

Radius coved bowl corners.

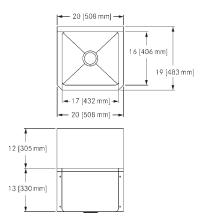

Includes 31/2" (89 mm) crumb cup strainer waste kit with 11/2" brass tailpiece.

Certified to ASME A112.19.3-2008 / CSA B45.4-08. Outside dimensions **19x 20 x 25"**

Inside bowl **16 x 17 x 13"**

Waste location Center

\$5,174

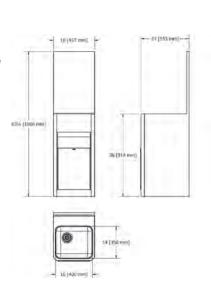

Stand alone hand wash sink HWS1821-I-3

Hand wash station with backsplash and integrated waste bin is designed for private and public spaces. Fully hand fabricated from 18 gauge, type 304 stainless steel. Exposed surfaces are satin finished. 11/2" grid waste fitting is included. Certified to ASME A112.19.3-2008 / CSA B45.4-08. Outside dimensions 21 x 18 x 63 1/4"

11/4" (32 mm) grid strainer with removable tailpiece. Certified to ASME A112.18.2-2005/CSA B125.2-2005.

\$58

Drain Parts & Fittings

Type 316 tailpiece 315-9-316

 $11/2 \times 3$ " (38 x 76 mm) type 316 stainless steel tailpiece.

\$23

Specialty waste fitting, drain cover WHB5222-PW

Replacement stainless steel pyramid-shaped waste cover for WHB5222-7 basin.

\$85

Overflow kit for laundry sinks

Components for laundry sink overflow assembly, 3 1/2" (89 mm) waste size.

Overflow replacement parts

Chrome finish overflow elbow 21020

 $2\,5/8\times11/4$ " (67 x 32 mm) elbow with flat washer. For use with vanity basin models with overflow: WT400C-8, WT500C-8, WT600C-8, OV1420U-5, OV1619-5, OV1317U-5, OV1418-6, OV17-5, OV17-6.

\$5

Chrome finish overflow collar

21021

3 3/16 x 2 1/8" (81 x 54 mm) overflow collar. For use with vanity basin models with overflow: WT400C-8, WT500C-8, WT600C-8, OV1420U-5, OV1619-5, OV1317U-5, OV1418-6, OV17-5, OV17-6.

\$4

Overflow tubes, stainless steel, various lengths

21100

10" (254 mm) for OV17-6 vanity basin.

\$27

21105

10 1/2" (267 mm) for OWB1420U-5 undermount sink, OV1821-6 vanity basin.

\$28

21110

11" (279 mm) for OV1418-6 and OV1419-6 vanity basins.

\$28

21600

6" (152 mm) for OV1420U-5, OV1317U-5 vanity basins.

\$17

21650

61/2" (165 mm) for OV1420U-5 vanity basin.

\$ 21

21750

71/2" (190 mm) for OV17-5 vanity basin, WT400C-8, WT500C-8, AND WT600C-8 wall hung basins.

\$20

21850

8 1/2" (216 mm) for OWB1119U-5 undermount sink.

Custom solutions

Full custom fabrication capabilities: No minimum order

Franke Commercial will custom fabricate products to meet our customers' exact specifications. Modifications can be made to most of our standard catalogue products.

All our custom fabricated products are polished to a #4 satin finish and can be made to meet the material specification you require (T304 or T316, 14 to 18 gauge). Continuous weld construction is available for pharmaceutical applications if required.

Contact us for a quote:

- Countertops
- Topmount & Undermount Sinks
- Drainboard Sinks
- Scullery Sinks
- Wall Mount Hand Wash Stations
- Surgical Scrub Stations
- Mop Sinks
- Wall Mounted Utility Sinks

Some customers require a sink, basin, or countertop that is different from our catalog offering. This is why Franke Commercial is proud to offer custom stainless steel solutions for our customers. If you can sketch it, we can build it using our decades of experience and the quality you expect from Franke.

It starts with a sheet of stainless steel

We will cut, form, weld and finish it to your exact specifications. Give us the material specifications, written spec or drawing, and Franke will deliver a certified high-quality product.

Sinks with integrated countertops

Tops are available in any size and length. Sink bowl welded into countertop.

Custom-sized sinks

We have worked with architects, designers, and engineers for decades to bring their unique designs to life.

Scullery & utility

Tailor made bowl size, height, backsplash style, drainboards, and sink edge types.

Healthcare & pharmaceutical

Continuous weld construction available upon specification. Custom made products that meet or exceed national healthcare standards.

Care & Maintenance for Stainless Steel Sinks

WHAT TO DO

Brushes with natural or plastic bristles, cotton or synthetic or micro fibre clothes, leather, sponges, pressure washer, vapour stream cleaner, toothpaste, household and window-cleaning products and natural cleaning substances like diluted vinegar (20 % vinegar / 80 % water) are ideal for cleaning stainless steel.

The best form of maintenance is frequent, regular cleanings. The best method of preventative maintenance is to ensure that the fixture is clean, dry and exposed to room atmosphere when not in use. Rinse and towel dry the fixtures daily in order to minimize major cleanups. This is of particular importance if potentially corrosive chemicals have been used.

Keep the fixture free of any standing water, which may build up mineral deposits. The quality of your water can affect the appearance and this water quality will vary from building to building.

To clean your stainless product, use the mildest cleaning procedure that will do the job effectively. On mirror finish (shiny) products we recommend using either a liquid detergent or Peek™ with a soft cloth. DO NOT USE ABRASIVE MATERIALS ON THE MIRROR FINISH. On satin (matte) finishes and/or inside sink bowls we recommend using a very mild abrasive cleanser such as Old Dutch® or Cameo®.

Any cleaning or scrubbing to remove stubborn stains should follow the direction of the grain line. Any scrubbing across the grain will show as a scratch. Scrubbing in the same direction as the polish lines will blend in any surface scratch. We recommend that Scotch-Brite® pads be used only on satin finishes.

Stains and water spots anywhere on the product can be removed with a small amount of PeekTM on a damp cloth. Rub Peek™ over the surface. Always rinse after using a cleaning agent, and wipe dry to discourage any water spotting.

WHAT NOT TO DO

We recommend that you do not use chlorine bleach to clean stainless steel, as chlorine will attack the protective layer that makes stainless steel truly stainless. The risk of damage is proportional to the concentration of the chlorine and the duration of exposure between the fixture and chlorine agent. Always dilute any antibacterial product used and wipe up any spills. Note: some antibacterial soaps contain a chlorine compound.

The unique properties of stainless steel are dependent upon exposure of the surface to the atmosphere. Do not leave any utensils in a sink overnight, as they will trap water underneath or leave a residue of small iron particles which could lead to staining and discoloration of the surface. They may not even be readily visible, but they most certainly will lead to corrosion. Any signs of rust can be remove with non metallic Scotch-Brite® scouring pads, but do not scrub across the grain. For similar reasons do not leave any mild steel, or cast iron cookware or implements, anywhere on a stainless steel surface for extended periods of time. Steel wool, metallic scouring pads, abrasive, grinding and polishing powder as well as sand paper should never be used on a stainless steel surface as they can damage or scratch it.

STAINLESS STEEL TYPES & FINISHES

20 GAUGE

18-8 stainless steel, Type 302 A good quality steel with 18% chromium and 8% nickel content. This type of stainless steel is typically used for sinks that are 8" deep or less.

16 & 14 GAUGE

Type 304

Most often used in fabrication of institutional sinks such as kitchen sculleries, wallmount utility sinks, as well as mop and service sinks.

BOWL AND DECK FINISHES

With the exception of vanity basins, the Franke Commercial sink bowls have a #4 satin finish. A satin finish has a noticeable grain line on the inside of the bowl. This type of finish is practical, particularly in a heavy use application, as any scratches may be blended into the grain line.

The #4 satin finish deck will stand up to the rigours of time and repeated use, and the natural grain of the steel will disguise any scratches acquired from use.

18 GAUGE

18-10 stainless steel, Type 304 A heavier weight stainless with 18% chromium, and 10% nickel. This type of stainless steel is optimal for manufacturing deeper sink bowls.

CHEMICAL DATA

A = fully resistant, **B** = fairly resistant, **C** = not resistant. The chemical data above should be used as a guide to determine the type of stainless steel that will be appropriate for the application.

The rating system denotes the level of resistance to corrosion for the different types of stainless steel. For applications involving chemicals or conditions not listed, please consult Franke Commercial customer service.

Corrosion, or rusting, often reported soon after installation, has two main causes:

- 1. Contact Corrosion occurs when a piece of common carbon steel, copper, brass or other foreign material contacts the sink and destroys the passive protective film.
- 2. Pitting or Pinhole Corrosion occurs when chlorides attack the steel forming pits where galvanic cells are created. Acid chlorides are particularly severe, but even chlorine bleach can cause failure. The sink should be rinsed thoroughly after such contact. Type 316 steel should be specified if the sink will be subject to such conditions.

In the presence of oxygen, stainless steel forms a protective chromium oxide layer. This is due to the addition of chromium in excess of 11.5% during the alloying stage. The further addition of nickel, in excess of 7%, gives superior corrosion resistance to the 300 series.

Maximum corrosion resistance is obtained with the addition of molybdenum to form TYPE 316, designed to resist attack under highly corrosive conditions.

As implied, stainless steel requires oxygen in order to be stainless. There are ways to make oxygen more plentiful. For example, an acid solution which might otherwise corrode the steel, can be aerated to maintain the protective film.

Miranit: Franke's composite quartz material

What is Miranit?

MIRANIT™ [meer-a-nit] is a stable, impact-resistant compound consisting of natural minerals such as quartz, sandstone, and marble (in sand form) bonded together by a high quality, unsaturated, polyester resin. Quartz is one of the hardest materials on earth and constitutes a large part of the earth's crust. The final product is a non-porous, highly stable and durable comination of these materials.

Elegant, residential look and feel for commercial applications

Warm to the touch, glossy with an Alpine White finish, Miranit commercial sinks have an at-home feel. All desirable features for applications for patients, students, and in high-end boutique settings.

Medi-flo hospital sink HWSS2321W-00

Nightingale sink AHWSS2321W-00

EXOS Hand Wash Basin ANMW0010

Washino Trough Sink SANW200

MIRANIT fracture-resistant material compound is made of natural materials and unsaturated polyester resin.

2 Non-porous, hygienic, high-gloss surface in Alpine White colour.

3 Temperature-resistant up to 80°C.

Products made of this material can be classed under the generic term "cast mineral products"

Warranty

EFFECTIVE SEPTEMBER 1, 2022

In the United States, Canada and Latin America, Franke warrants the products from manufacturing defects in material and workmanship when purchased from Franke or a Franke Authorized Retailer pursuant to product-specific warranties detailed herein (each, a "Warranty" and collectively, the "Warranties"). The products must be properly installed, per company's installations instructions, in ts original installation, and used in normal indoor residential kitchen applications. Any products or components which have been modified or altered, from its original intended condition will void the warranty. The Franke Warranties are limited to the original purchaser and are non-transferrable. These Warranties do not include products purchased from non-Authorized Retailers, products that are obsolete or discontinued, or products that were previous display models. All issues with installed products are considered warranty claims and not subject to the Return Policy. Franke reserves the right to inspect any product reported to be defective and the original installation prior to providing a replacement product and/or component. All decisions are final. In no situation shall the liability of Franke exceed the amount of the original purchase price.

The Warranties do not cover, and Franke shall not be liable for, any damage to products or components resulting from misuse or abuse, accidental damages, normal wear such as scuffs, scratches or finish reduction/fading; improper installation, abnormal usage, negligence, damage caused by improper maintenance or cleaning. Damage caused by impurities, corrosive chemicals or acts beyond Franke's control are not covered by any Warranty.

Franke product replacements do not include transportation, shipping, diagnosis, labor, installation, removal, disposal for any products or liability for project delays. Product replacements are not guaranteed to be exact replacements. The owner of a product is liable for any transportation and re-installation costs related to any warranty for such product. If the original product is not available at the time of the warranty claim, at Franke's option, the product replacements will be of similar size, material, and value. Any products or components which have been modified or altered, from its original intended condition will void the warranty.

The Warranties do not allow recovery of incidental or consequential damages such as loss of use, delay, property damage or other consequential damage, and Franke accepts no liability for such damages. Each Warranty is limited to the conditions set forth herein and to the applicable warranty period specified herein and is exclusive. EXCEPT FOR THE WARRANTIES SET FORTH HEREIN, FRANKE MAKES NO WARRANTY WHATSOEVER WITH RESPECT TO THE PRODUCTS, INCLUDING, BUT NOT LIMITED TO, (1) ANY WARRANTY OF MERCHANTABILITY, (2) WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE, (3) WARRANTY OF TITLE, OR (4) WARRANTY AGAINST INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS OF A THIRD PARTY, WHETHER EXPRESS OR IMPLIED BY LAW, COURSE OF DEALING, COURSE OF PERFORMANCE, USAGE OF TRADE OR OTHERWISE, LEGAL DISCLAIMER PLEASE READ CAREFULLY, Franke Home Solutions North America, LLC/Franke Kindred Canada Limited provides the above information to you as a public service to our customers.
